RIGID INVESTIGATION THREATENED FOR BIXBY

Washington, Dec. 22.—The charges which M. L. Mott, attorney for the Five Tribes, has made against the administration of the Five Tribes in Indian Territory will, in all probability, be subjected to a rigid investigation. Though none of those immediately concerned will discuss the matter it may be said that Mr. Mott's allegations have been read at the White House and the president is reported to have said that they are of a nature to call for a searching inquiry.

Tams Bixby, Commissioner to the Five Tribes, arrived last afternoon in response to a hurried call from Secretary Hitchcock. Dr. Leo Bennett, Marshal, and Arthur Mellette, United States Attorney, both of the Western District, were also here.

The charges which Mr. Mott has made will be placed before Mr. Bixby at once by Indian Commissioner Leupp who has been given immediate charge of the matter. What the further proceedings are to be will depend largely on Mr. Bixby's reply. If this should lack anything of being a clear refutation it is said an inspector will probably be sent to Muskogee to get sworn testimony.

The fact that Mr. Mott will leave for home tomorrow with the permission

of Mr. Leupp, is taken to mean that he will be given an opportunity to substantiate his charges with testimony taken under oath at Muskogee.

These charges, together with those which it is said, are made in Mr. Mott's report are said to indicate a sad state of affairs in the territory.

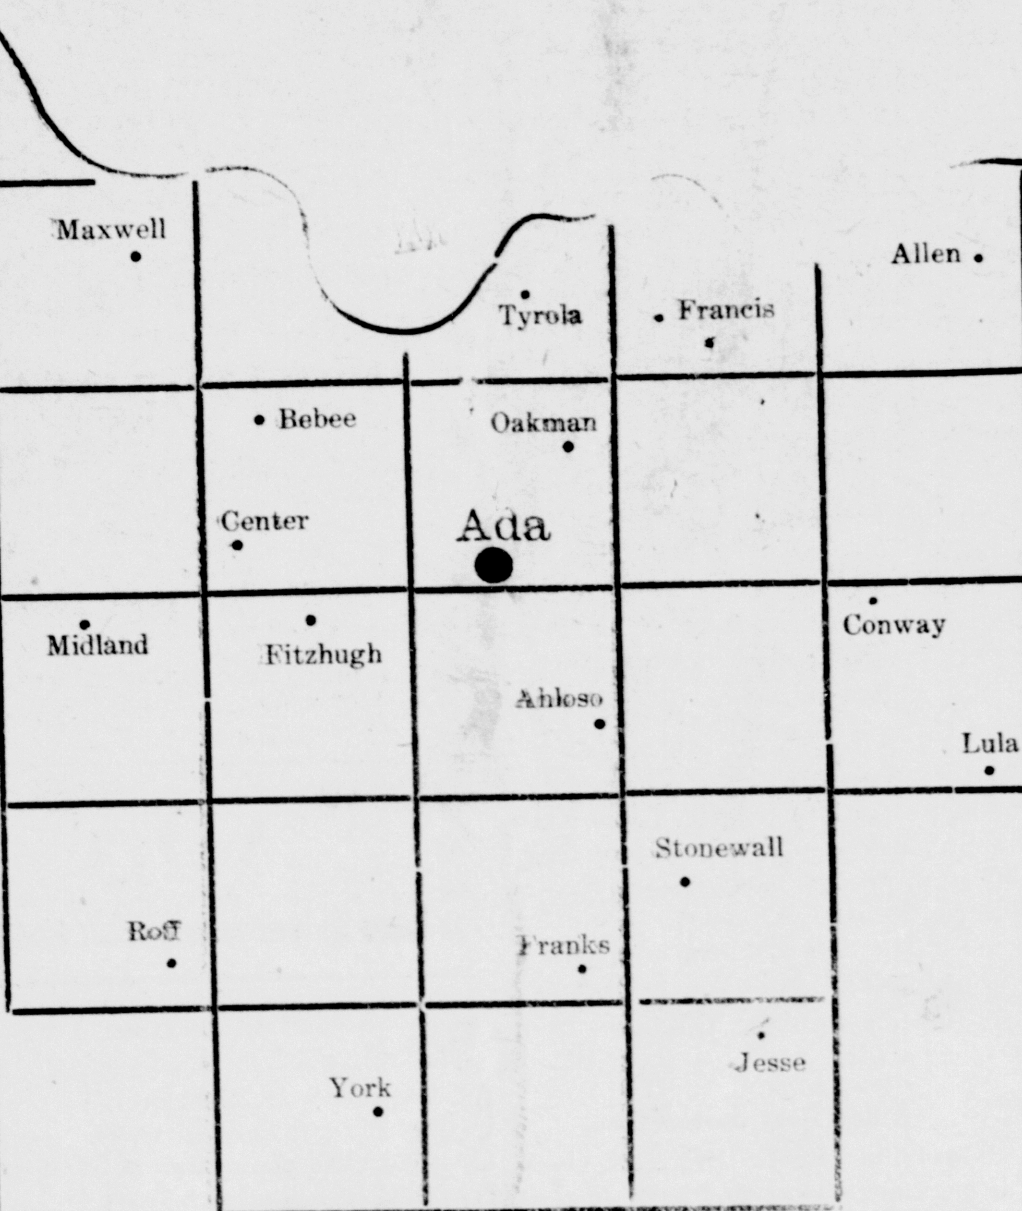

If proved it is said they would make a sensation of large proportions, in that they would show that the ramifications reach even to Washington.

Senators Nelson and Clapp of Minnesota were at the White House yesterday. It is understood they discussed with the President briefly the alleged condition of affairs in Indian Territory. Mr. Bixby was formerly a resident of Minnesota, active in the policies of that state and is something of a protégé of Senator Clapp, who as chairman of the committee on Indian affairs, is familiar with the affairs of the Five Tribes.

WHAT PONTOTOC COUNTY IS LIKE

The county of Pontotoc, State of Oklahoma, as carved out by the Constitutional Convention, is composed of twenty townships, 720 square miles, or 460,800 acres, as ascertained by careful computation, and has a population of 21,000. This area, all things considered, is comparatively compact and lies in easy reach of the county's metropolis and railroad center, Ada.

Pontotoc is a good name, euphonious and easily spelled. Indian in origin, the name perpetuates that of our old Indian County, the northernmost of the four Indian subdivisions of the Chickasaw Nation. Looking over the names of other new counties, one must admit Pontotoc is the most charming of the whole bunch. Delegate Weaver, who had the naming of the county, is to be congratulated on his good taste.

It is a Chickasaw word meaning originally, "the place of meeting," "the council hall," first used to designate an old rendezvous of the Chickasaws back in Mississippi.

But what our people are properly most interested in is the volume of taxable wealth Pontotoc County will contain. As yet any estimate of our taxable resources must be largely speculative, but below is given a summary of those resources carefully computed and approximately correct.

Co. Towns	Pop.	Tax.	Wealth
Ada	4,500	\$1,500,000	
Roft	1,800	\$600,000	
Stonewall	1,000	\$400,000	
Francis	600	\$100,000	
Allen	600	\$150,000	
Van Noss	500	\$100,000	
Center	200	\$40,000	
Tyrola	150	\$25,000	
Fitzhugh	250	\$50,000	
All other towns		\$150,000	
Totals	9,600	\$3,115,000	

There is to be added to this 84 miles of railroad at the reasonably low valuation of \$10,000 per mile: Frisco and Oklahoma Central, each 30 miles; M. K. & T. 24 miles. Also about ten per cent of the land which will be taxable, at say \$10 per acre, which would make \$468,000 more of taxable values.

Adding to these items \$900,000 worth of personal property in the rural sections, we have a grand total tax valuation of \$5,323,000.

In both quantity and quality Pontotoc compares favorably with other counties of the recent coinage.

SEARCHING FOR LAW TO SUPPORT HITCHCOCK'S ORDER

Washington, Dec. 22.—The lawyers of the Interior Department have just put the Five Tribes act under a microscope and are ransacking the law books in search of some authority or precedent to sustain Secretary Hitchcock's order reserving four million acres of land from allotment in Indian Territory. A somewhat similar order made by Secretary Teller in 1873, when he was Secretary of the Interior, is so far the product of this search.

Secretary Hitchcock is so certain that his order is for the benefit of the Indians that he will keep it in force if it can be supported by any splinter of the law. The President is said to be of like mind. Up at the Capitol, however, the opinions prevail that the Secretary will find nothing which even his wish can transmute into authority. It is believed up there he is delaying the revocation of the order merely to make the flagrancy of his usurpation less palpable. There is hardly a doubt that if he persists in the order that some affirmative action in Congress will be attempted, either by means of a resolution or by an amendment to the law, which will specially deprive the Secretary of the power he has exercised in this matter.

Representative Stephens of Texas introduced a resolution in the house yesterday asking that Secretary Hitchcock be requested to furnish the House with

DEMOCRACY'S CHRISTMAS GIFT TO THE PEOPLE

The Legislative Department Committee of the Convention, of which the Hon. James Buchanan Tish is Chairman, reported on December 18, the Initiative and Referendum clause that will be incorporated in the constitution. Mr. Tish is one of the largest farmers in Oklahoma. He is a leader in the Great Farmers Union movement, and was made Chairman of this committee by President Murray as a special compliment to the farmers of Oklahoma. Mr. Tish's decided views on the Initiative and Referendum, and the election of United States Senators by the direct vote of the people, secured him this appointment.

The law as reported is modeled after the Oregon law where such splendid results have been achieved by the use of the Initiative and Referendum. The main features of the law are:

First: An eight (8) per cent petition for the Initiative, and five (5) per cent petition for the Referendum.

The veto power of the Governor does not extend to measures voted on by the people.

It is mandatory upon Legislature to pass a law putting the Initiative and Referendum into effect. If they fail, it is made the Governor's duty.

It applies to all acts of County Commissioners, City Councils, and other District officers.

Any part of any law can be referred to the people. This applies to appropriation bills.

A law that has been enacted by the use of the Initiative and Referendum

can never be amended or changed by any subsequent legislature without referring the law back to the people. A law rejected at the polls by the people cannot be again petitioned for within three years.

The Democratic party has redeemed the first and greatest promise it made to the people. It was claimed during the campaign that the Republican Party would not pass this law if the writing of the Constitution was entrusted to it. This was evidenced by the final vote of the Committee of fifteen, on which there was one Republican, R. E. Houston of Agra, who voted for a ten per cent Initiative, and twenty-five per cent Referendum.

With the enactment of this law in the Constitution the people of Oklahoma will have no one to blame but themselves if they do not secure justice in all the future laws that are passed in Oklahoma.

The Legislative Department Committee has five members of the Farmers Union upon it, and the attorneys on that Committee are broad-minded men of great legal acumen, and are conscientious and earnest in their endeavor to serve the best interests of the people.

Hon. Henry Johnson of Perry is the author of the main features of this great law. It was criticized by Hon. Pat Nagle and Hon. J. R. A. Robertson, and the greatest care has been taken to give the people a law that will protect them in all their rights forever.

This Committee has now under con-

Worth Repeating

The Hooker Advance resurrects the following: "This 'poem' is from an unknown bard, but the Ottawa Herald vouches for its excellence. 'The rose that smells the sweetest is the first to fade. The boy that runs the fastest is he one to soonest fade. The brightest of the evenings has the gloomiest of the dawns. The man who buys the biggest yard must cut the biggest awn. The apple that is the biggest has the fattest worm of all. The fellow that gets on is sure to have a fall. The soup that is the clearest is the first to show the flies. The fellow who would sell the goods must advertise. The hen that lays the largest egg will be the first to set, and the things we always hanker for are the last of all we get. The simplest way is always the best and yet we pass it by, to dabble with the tinsels things that fool and catch the eye.'

Bud Was Blowing Some.

As the News reporter threaded his way down the crowded sidewalk he observed a big overgrown 18 year old boy blowing a little toy horn of the cornet pattern. The tiny tune could just be heard above the hum of humanity. The horn and its tune were amusingly disproportionate to the bigness of the boy. Catching Bud's eye, the reporter smiled and winked at him, whereupon Bud pulled the instrument out of his mouth, spat, and then sniggered.

The reporter stalled on down to the U. S. Marshal's office with his nose out for news. Not finding any one inside, he asked a listless-looking bystander if he had seen any of the deputy marshals lately. "Naw, I ain't—note lately," was the sleepy response. "An' more'n that, them not the folks I'm lookin' for." Apparently the fellow had been up against 'em.

Chickens as Lay Members.

John Herman, an energetic Methodist church worker, has organized the chickens in the neighborhood of Wesley Methodist Episcopal church, near Sykesville, Md., into a missionary society to raise funds to aid the church. Each hen is a lay member, so to speak, and the farmers of the neighborhood agree to turn over to the church each and every egg that their hens lay on Sunday and only those laid on that day. These eggs are to be taken to the church each Sunday afternoon at the Epworth League service and placed in a basket.

Slayer Surrenders.

Ardmore, I. T., Dec. 22.—U. N. Bryant, a prominent farmer of the Dixie community, has surrendered to the officials here. Bryant is charged with having, in a difficult, shot and killed an Indian named S. F. Frazier. The tragedy took place at Dixie on Monday.

How Diphtheria is Contracted

One often hears the expression, "My child caught a severe cold which developed into diphtheria, when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. For sale by—G. M. Ramsey.

Bee's Laxative Cough Syrup containing Honey and Tar is especially appropriate for children, no opiates or poisons of any character, conforms to the conditions of the National Pure Food and Drug Law, June 30, 1906. When To Go Home

From the Bleeton, Ind., Banner: "When tired out, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do the act there. When you feel like being extra liberal go home and practice on your wife and children first. When you want to shine with extra brilliancy go home and light up the whole household." To which we would add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by G. M. Ramsey.

ADA, CHICKASAW NATION, INDIAN TERRITORY.

The biggest little city in the new commonwealth. The city that has never experienced either a boom or a blow. During its six years' life it has gradually grown into a commercial and railroad center of 4,600 population. The growth has been natural, solid, and enduring.

Society excellent, good schools and strong churches; unsurpassed agricultural section; six railroad outlets; five more such outlets under contract to build by September, 1907, bonuses are raised.

Veritably Ada

is a city built upon a rock, and it will stand. It is in the logical belt of various mineral resources. Court town for 16th Recording District and unquestionably a county seat under statehood. Not a rival town within a radius of 40 miles. In a cotton country, but not dependent upon cotton. Healthful climate; good water. Low taxes; real estate values reasonable, but rising. Ada is the place pre-eminent to live or invest in. Better get in on the ground floor before the skyscrapers come.

Letter to Sprague Bros., Ada, I. T. Gentlemen: It's an old saying: the best advertisement is a pleased customer.

It happens to us continually in this way: A man buys Devotee for his house — he has painted it once in three years for a dog's age, and thinks he knows what he wants—buy 30 gallons, and has 10 left.

He sees right-off that 20 Devotee is as much as 30 of anything else. He likes that; it comes quick; it is a surprise; and he tells of it. The best advertisement is a pleased customer.

Three years roll round. There isn't a sign that his house needs paint; he don't paint it. Next year he don't paint it. This comes slow; it is a surprise; but he has got used to it. Still the best advertisement is a pleased customer.

Yours truly,
F. W. Devotee & Co.,
New York, Chicago and Kansas City.

favorite tonic is White's Cream Vermifuge, the cure for worms and all children's diseases. It not only kills the worms, but removes the mucus and slime in which they build their nests. Its action on the child is mild and leaves him in a healthy condition. OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

About Titles

In a recent Minnesota supreme court case Justice Flandrau, reviewing the labor and skill necessarily displayed in the compilation of an abstract, says: "The making of a perfect abstract of title to a piece of land with all the incumbrances which affect it, involves a great exercise of legal learning and careful research. The person preparing such an abstract must understand fully all the laws on the subject of conveying, descent and inheritances, uses and trusts, devises, and in fact every branch of the law that can affect real estate, in its various mutations from owner to owner, sometimes by operation of law, and again by act of the parties."
